PRODUCT

Lights for ceiling solutions

Eyeleds

EASY INSTALLATION AND DURABILITY

This collection, which will soon be available, consists of a number of specific fixtures that can be integrated into various ceiling materials. Everything is equipped with Plug & Play systems for easy installation on a 230V socket. In addition, the collection contains various recessed spotlights and panels.

L4CS

ILLUXTRON

ALTRA 68

Eyeleds and a local production factory have entered into an exclusive collaboration to create a new advanced automatic production line for recessed spotlights. This partnership is a game-changer for customers who previously purchased directly from China. With increasing environmental regulations and political tensions, the need for local production has never been more critical. The new project offers an attractive price point while delivering quality and reliability. All products are manufactured from raw materials to finished goods.

Altra 68 has a low recess depth of only 30mm in combination with an architectural design. Please stay tuned for more interesting products in the near future!

About us

ILLUXTRON

With over 50 years of knowledge and experience in the lighting industry, we have become a leading supplier of high-quality LED lighting products. We know our products inside out and strive for continuous improvements. But we don't stop there - if our collection doesn't meet your needs, we can provide custom-made lighting solutions, from minor modifications to entirely new products. It is, therefore, no coincidence that an ever-increasing number of customers apply Illuxtron lighting products in projects.

ILLUXTRON

CUSTOMISED SOLUTIONS

At Illuxtron, we create competitive and innovative led lighting for a broad audience. But what if you can't find a luminaire that fits your needs? That's where MIYO (Make It Your Own) comes in, from simple adjustments like colour or size to new lighting solutions. We design custom-made lighting that is specifically tailored to your needs.

A FAMILY BUSINESS

For over 50 years, the company is driven by passionate employees committed to providing high-quality LED lighting.

INVENTIVE

We incorporate the latest technology in our led lighting. We always look to innovate and improve, from dimmable downlights to led panels and luxurious ceiling lights.

100% DUTCH

Our R&D department in the Netherlands develops our LED lighting from A to Z. We know our products inside out and challenge ourselves to improve them.

7-YEAR GUARANTEE

Our guarantee is based on the luminaires burning continuously at a maximum ambient temperature of 45°.

PROJECT SUPPORT

Bulk packaging, room-by-room labelling, and free GST18 plugs are all options for product delivery.

SOCIAL ENGAGEMENT

All our products are assembled at social workshops in the Netherlands.

LIGHTING KNOWLEDGE

Light is our passion. We are happy to dedicate ourselves to developing a good lighting plan that brings out the best in your working environment and/or your products.

CUSTOMER SUPPORT

Our sales department is always at your service for any questions or for support. customersupport@illuxtron.com
