production line
for recessed
spotlights

ALTRA 68

FROM RAW MATERIAL TO END PRODUCT

A CLEAR EYE FOR DESIGN & QUALITY

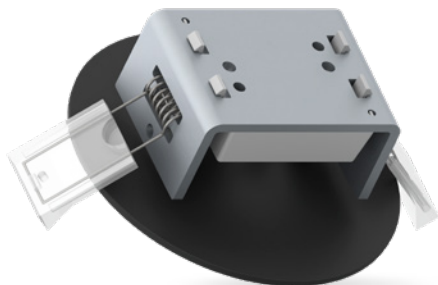

NEW - ALTRA COMPOSITE

Eyeleds and a local automotive factory have entered into an exclusive collaboration to create a new advanced automatic production line for recessed spotlights. The previous Philips factory is now an important player in the LED automotive market and exports a significant part of its turnover to Chinese car manufacturers. Eyeleds has a lot of experience in developing LED recessed spotlights and is a reliable partner in the lighting market.

This partnership is a game-changer for customers who previously purchased directly from China. With increasing environmental regulations and political tensions, the need for local production has never been more critical. The new project offers an attractive price point while delivering quality and reliability. All products are manufactured from raw materials to finished goods.

PLUG & PLAY CABLE SYSTEM 3/5P

A GST18 Plug & Play Solutions (Assembled to driver)

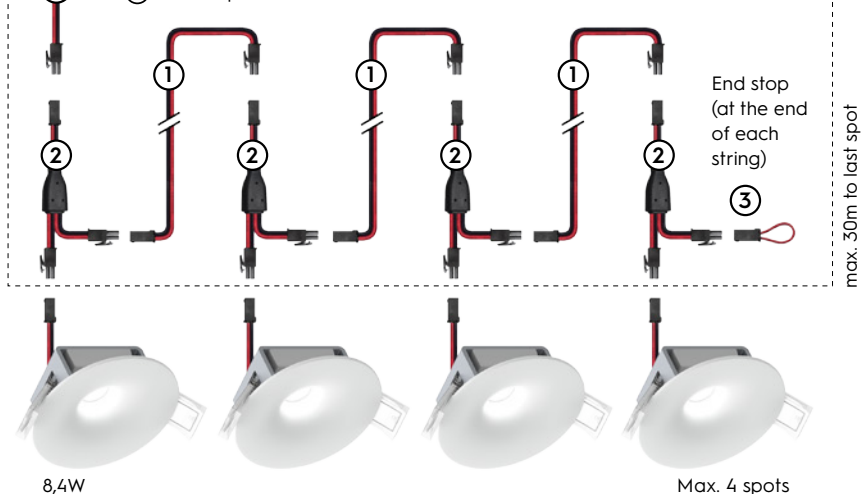

FEATURES

- Professional 16A Plug & Play system
- 3 or 5 wire system
- Widely spread in lighting market

LVC cable set (For max. 4 spots per driver)

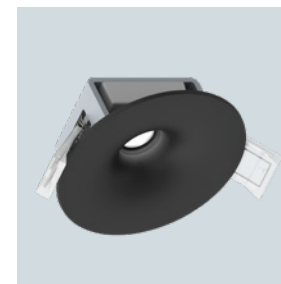

- ① 4x LVC Extension cable 2m
- ② 4x LVC Y-cable
- ③ End stop

ALTRA 68/PSU

Altra 68 LVC
white (XX=MW)

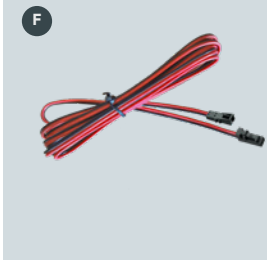

Altra 68 LVC
black (XX=BL)

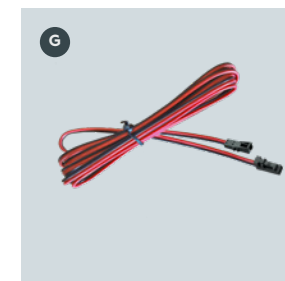

PSU 36W No dim
PSU 32W Triac
PSU 38W Casambi
PSU 36W Dali

PLUG & PLAY CABLE SYSTEM 3/5P - ACCESSOIRES

A GST18 Plug & Play Solutions (Assembled to driver)

LVC Extension cable 2m

LVC Extension cable 10m

About us

EYELEDS

The history of Eyeleds goes back to 2004, where a collection of narrow floor spotlights was developed and quickly grew into a global sales network in 43 countries. Now after 20 years, this brand is still known among leading architects and lighting designers. A group of professionals revived the brand in 2024 with a series of innovative products that are produced fully automatically from raw material to end product in the Netherlands.

Eyeleds products are primarily aimed at the Western European lighting market, where environmental standards increasingly require products to be produced close to home. The production location meets the highest standards and the products are ENEC approved and provided with EPD certificates. The collection has been supplemented with a number of standard products so that a total solution can be provided for the customer.

**MADE IN
HOLLAND**

MADE IN HOLLAND

The product is made from raw material to endproduct in the Netherlands.

**5-YEAR
GUARANTEE**

5-YEAR GUARANTEE

Our guarantee is based on the luminaires burning continuously at a maximum ambient temperature of 45°.
